

What are the Sustainable Development Goals (SDGs)?

The 17 SDGs are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity by 2030. The goals are interconnected and cover a range of issues.

SUSTAINABLE DEVELOPMENT GOALS

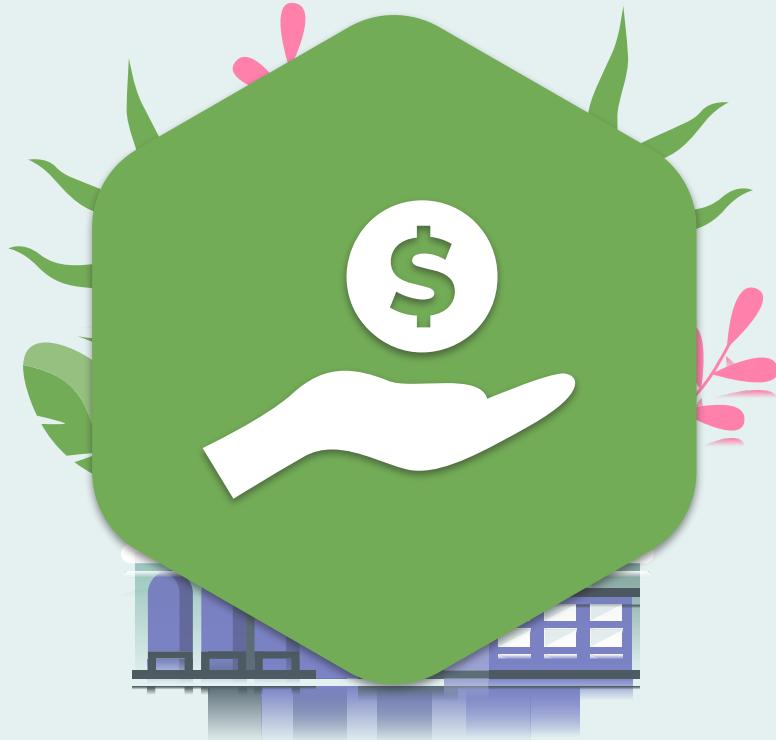

No Poverty

End poverty in all its forms everywhere.

This goal aims to eradicate extreme poverty and reduce inequality, particularly in developing countries.

Zero Hunger

End hunger, achieve food security and improved nutrition, and promote sustainable agriculture. This goal aims to ensure that everyone has access to sufficient, safe, and nutritious food.

Good Health and Well-Being

• • • • • •

Ensure healthy lives and promote well-being for all at all ages. This goal aims to improve access to healthcare, reduce the burden of disease, and promote healthy lifestyles.

Quality Education

Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all. This goal aims to ensure that everyone has access to education and the skills they need to succeed in life.

Gender Equality

• • • • • •

Achieve gender equality and empower all women and girls. This goal aims to eliminate gender discrimination and promote equal opportunities for women and girls.

Clean Water and Sanitation

• • • • • • •

Ensure availability and sustainable management of water and sanitation for all. This goal aims to improve access to clean water and sanitation, particularly in developing countries.

Affordable and Clean Energy

Ensure access to affordable, reliable, sustainable, and modern energy for all.

This goal aims to promote the use of renewable energy and improve energy efficiency.

Decent Work and Economic Growth

• • • • • • •

Promote sustained, inclusive, and sustainable economic growth, full and productive employment, and decent work for all. This goal aims to reduce unemployment, improve working conditions, and promote economic development.

Industry, Innovation and Infrastructure

Build resilient infrastructure, promote inclusive and sustainable industrialization, and foster innovation.

This goal aims to promote sustainable industrialization and innovation to support economic growth and development.

Reduced Inequalities

• • • • • •

Reduce inequality within and among countries. This goal aims to reduce income inequality and promote social, economic, and political inclusion.

Sustainable Cities and Communities

• • • • • • •

Make cities and human settlements inclusive, safe, resilient, and sustainable. This goal aims to promote sustainable urban development and improve access to basic services in cities and towns.

Responsible Consumption and Production

Ensure sustainable consumption and production patterns. This goal aims to promote sustainable consumption and production practices to reduce waste and minimize the environmental impact of consumption.

Climate Action

Take urgent action to combat climate change and its impacts. This goal aims to reduce greenhouse gas emissions and promote climate resilience.

Life Below Water

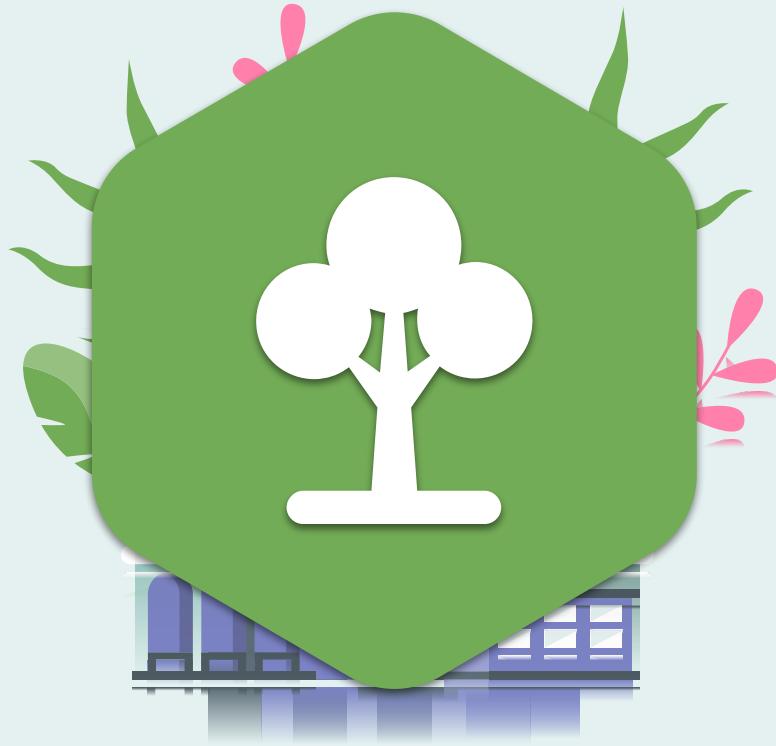

Conserve and sustainably use the oceans, seas, and marine resources for sustainable development. This goal aims to protect marine ecosystems and promote sustainable use of marine resources.

Life on Land

Protect, restore, and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and biodiversity loss. This goal aims to protect biodiversity and promote sustainable land use.

Peace, Justice and Strong Institutions

• • • • • • •

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all, and build effective, accountable, and inclusive institutions at all levels. This goal aims to promote peace, justice, and good governance.

Partnerships for the Goals

Strengthen the means of implementation and revitalize the global partnership for sustainable development. This goal aims to promote collaboration and partnerships to achieve the SDGs.

Successful SDG Implementation

Rwanda	Reduced poverty, increased access to education and healthcare, and promoting gender equality	Significant strides in environmental sustainability, promoting renewable energy and reduce deforestation
Denmark	Implemented policies to promote renewable energy and reduce carbon emissions	Invested in sustainable transportation infrastructure, and has a strong social welfare system
Costa Rica	Prioritized environmental sustainability, with a goal to become carbon neutral	Achieving SDG 8 and 10, with policies to promote social inclusion and economic development
South Korea	Promoting innovation and sustainable industrialization, with initiatives to promote research and development	Invested in renewable energy, implemented policies to reduce poverty and promote gender equality
Bangladesh	Significant progress towards achieving the SDGs, particularly in poverty reduction, healthcare, and education	Implemented policies to improve access to healthcare and education, made strides in reducing maternal and child mortality rates

Conclusion and Call to Action

01

Educate yourself

Learn more about the SDGs and their significance. Understand how you can contribute towards their achievement.

02

Advocate for the SDGs

Spread awareness about the SDGs and their importance through social media, community events, or other channels.

03

Take Action

Get involved in initiatives that promote the achievement of the SDGs. Volunteer, donate, or support sustainable businesses.

04

Hold Leaders Accountable

Hold political leaders and organizations accountable for their actions. Advocate for policies that promote sustainability and social justice.

“Sustainable development
requires human ingenuity.
**People are the most
important resource.”**

—Dan Shechtman
